REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Hampton Elementary School’s (HES) goal for the 2013-2014 school year has been to improve students’ content literacy skills through the use of levels of thinking and problem solving. Our school also continued to focus on reflective teaching and student engagement.

We are a TAP, the system for teacher and student advancement, school. Through this effort we have a TAP leadership team comprised of the principal, assistant principal, master teacher, and mentor teachers. As part of our commitment to growing our knowledge, the Leadership team and all career teachers meet weekly for focused, targeted professional development. The TAP leadership team meets weekly to analyze data including observations, self-reflection, assessments, etc... in order to plan meaningful professional development. In addition to professional development, our faculty collaborates weekly to share research based strategies. Our vision is through intentional planning and engaging instruction, we will inspire our students to be life-long learners and problem solvers.

Character education is an important part of our daily school life as we work to build good citizens who are caring, responsible, and trustworthy. Through the guidance department and career teachers, character education is embedded into classroom curriculum. It is our goal for our students to become responsible citizens who go out each day and make the right choices. To constantly encourage the behavior and choices we are seeking, we offer our students positive behavior incentives.

HES provides opportunities for students to participate in fine arts activities such as After School Chorus and the production of plays. This year we also had a volleyball, and two basketball teams to compete against other elementary schools in our district.

HES embraces working as a team with our parents and community members. With the assistance of our faculty, PTO, SIC, local faith-based organization and other community members, we hosted events for our community, fundraisers for our students, and made improvements to our school. Through these combined efforts our students now have more math manipulatives, conduct more hands-on science experiments, have access to more reading and writing materials as well as have more technology opportunities.
